Data Analyst with experience in data model design, ETL/ELT pipeline development, analytics process automation, and building scalable BI solutions.

Education

B.A. in Political Science and International Relations

CIDE - CENTER FOR RESEARCH AND TEACHING IN ECONOMICS

Mexico City

Aug '16 - Jul '20

Work Experience

TERÁN TBWA (INTEGER)

BI ANALYST

Mexico City

Feb '25 - present

- Built data pipelines to migrate Access files to DuckDB databases.
- Automated recurring reports with Python and R scripts.
- Analyzed customer experience (NPS) surveys and ran A/B tests for marketing campaigns (Thompson Sampling).
- Applied econometric models to estimate purchase probability, forecast email marketing metrics, and cluster leads.
- Automated data extraction to refresh 4 corporate dashboards.

ÁLTICA RESEARCH

ANALYST-RESEARCHER

Mexico City

Dec '23 - Jan '25

- Developed statistical models to estimate election results at the municipal, state, and national levels.
- Drafted questionnaires and reports with survey results.
- Conducted pre-test/post-test studies for political campaigns.
- Applied algorithms for market segmentation (latent class analysis, clustering, decision trees).

BGC ULISES BELTRÁN Y ASOCS

DATA ANALYST

Remote

Oct '20 - Dec '23

- Managed and visualized public opinion, electoral, and geospatial data.
- Developed statistical models to estimate election results at the municipal, state, and national levels.
- Drafted questionnaires and reports with survey results.
- Survey programming and weighting.

Other Projects

CIDE-CSES PROJECT: MEXICAN NATIONAL ELECTORAL STUDY

RESEARCH ASSISTANT TO DR. RODRIGO CASTRO CORNEJO

Remote

Oct '20 - Dec '23

- Applied multilevel models for small-area estimation.
- Cleaned, processed, and visualized panel data for reporting.

Publications
